

Tyre Vulcanizer

Model: RBT-222

- With special quick-clamp & pressure & movable heating device, matching with many kinds of special shaped heating devices, it makes operation more convenient. Completely auto electronic temperature-controlling device prevents it from aging caused by overheating.

- Optional colors: 

TECHNICAL DATA

Power supply	220V/50 Hz	Max. current	4A
Power	800W	Vulcanizing-temperature(sho e)	140°C-150 °C
Single-heating power	500W	Vulcanizing-temperature(tub e)	120°C-130 °C

Tyre Vulcanizer

Model: TLH1200

- The unique rolling framework makes operation easily Fully-automatic electronic control of temperature and time
- Optional colors: 

TECHNICAL DATA

Power supply	220V/50Hz
--------------	-----------

Power	1000W
Max.Current	5A
Up heater power	400W
Down heater power	400W
Temperature	0-300°C
Heating speed	20°C-160°C
Area	75x95
